## BATTERY CARE

Vehicle power requirements are on the increase and have been for many years.

With the inclusion of more advanced engine management systems, in-car multimedia and other electronic features designed to improve the driving experience, the vehicles power and battery requirements have also had to be updated to cope with this.

Gone are the days when the traditional lead acid battery was the only battery type available. Today because of a vehicle's much higher power requirements, many new types of vehicle battery are available.

START/STOP vehicles include special AGM (Advanced Glass Matt) or EFB (Enhanced Flooded Battery) batteries to deliver the high power performance these vehicles need.

## RCB212/RECB212

### 12V 12A Fully Automatic Battery Charger

### MARKETING SPECIFICATIONS

The Ring Automatic Battery Charger recharges and protects batteries in 12V vehicles up to 2.0L. Suitable for lead acid and gel batteries. Recharges a battery in around 15hrs, based on a 60Ah battery. Ideal for medium cars, lawnmowers and leisure batteries, and comes complete with fully-insulated battery clamps.

The LED indicators show when the unit is still charging, when the charge cycle is complete and alerts you if the clamps are attached to the incorrect poles on the battery.

The charger automatically switches to a lower charge rate once it detects that the vehicle or leisure battery is full. This protects the battery from overcharging, which can lead to damage, and also keeps the battery full.

### KEY BENEFITS

#### AUTOMATIC BATTERY CHARGER

- 12V, 12 amp fully automatic battery charger
- LED indicator
- Fast and slow charge rate settings
- Reverse polarity indicating LED

## RCB212/RECB212

### 12V 12A Fully Automatic Battery Charger

#### PRODUCT HIGHLIGHTS

Vehicles up to 2.0L.  
Suitable for lead acid and gel batteries.  
Charges a 60Ah battery in approx. 15 hours.  
Automatic charger, protects from overcharging.  
Battery clamps included.  
Polarity protection.

#### PRODUCT SPECIFICATION

Product Height (mm)	212
Product Width (mm)	272
Product Depth (mm)	101
Product Weight (Kg)	3.222

#### MAIN FEATURES

Charger Type:	Automatic
LED indicators	✓
Battery Capacity:	20-120Ah
Charging Current:	8A (fast)/3A (Slow)
Nominal Voltage:	12V
Battery clamps cable length:	1.3m

#### PACKAGING SPECIFICATION

Pack 1 type	BOX - SINGLE
Pack 1 Height (mm)	248
Pack 1 Width (mm)	272
Pack 1 Depth (mm)	120
Pack 1 Net Weight (Kg)	3.222
Pack 1 Gross Weight (Kg)	3.51
EAN2	5055175212203

#### PACKAGING SPECIFICATION

Pack 2 type	CARTON
Pack 2 Height (mm)	258
Pack 2 Width (mm)	280
Pack 2 Depth (mm)	246
Pack 2 Net Weight (Kg)	6.444
Pack 2 Gross Weight (Kg)	7.204
Pack 2 Quantity	2

#### OUTER PACKAGING SPECIFICATION

Pack 5 Height (mm)	284
Pack 5 Width (mm)	514
Pack 5 Depth (mm)	298
Pack 5 Net Weight (Kg)	12.888
Pack 5 Gross Weight (Kg)	15.078
Pack 5 Volume (m3)	0.043500848
Pack 5 Quantity	4
