

Auto Expel Mist Machine & Sanitising Liquid

Product overview

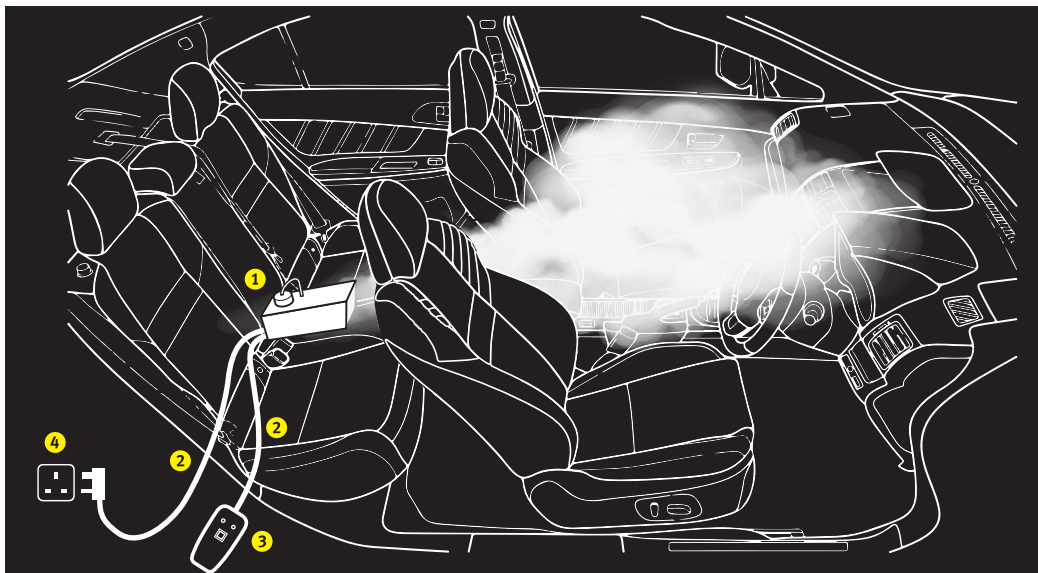

Have peace of mind and eliminate germs, viruses and bacteria from the vehicle.

Due to its unique formula **RING Auto Expel** sanitises the entire vehicle cabin, including the air-conditioning system.

As well as creating a safe clean environment for you and your customer, the mist will freshen your cabin, reducing stubborn odours.

- 1 Misting machine
- 2 Sanitising liquid
- 3 Remote control
- 4 Mains plug
- 5 On/off switch
- 6 Remote control socket
- 7 Mains power input
- 8 Fluid level indicator
- 9 Fluid reservoir cap

Instructions

First use only: Remove cap, pierce film and empty the test fluid out of the reservoir in the machine.

1. Fill the reservoir with the **Ring Auto Expel Misting Sanitiser** and replace the cap. Insert the clear tube through the cap and into the reservoir.
2. Place the misting machine **1** forwards, on the middle of the rear seats of the vehicle. If you have a van place the misting machine forwards on the middle seat. Run all the cables **2** out of the vehicle, including the remote **3**.

3. Ensure all vehicle windows are wound up and all the doors of the vehicle are shut.

4. Plug the misting machine into the mains power **4** and switch on.

5. Wait for a few minutes for the misting machine to heat up. When it is ready the red light will show on the remote **3**.

6. Hold the button on the remote for approximately 5 minutes until the vehicle is full of mist. At this stage visibility will be very poor.

7. Leave the mist to settle for 20 - 25 minutes.

8. Open the doors and let the mist clear. Remove the machine and treatment is complete.

Please note.

If vehicle has air-conditioning, run this on recycle to ensure the air-conditioning system is also sanitised. Remember to clean touch points of the vehicle with **Ring Auto Expel Sanitising Spray**.
