Towing

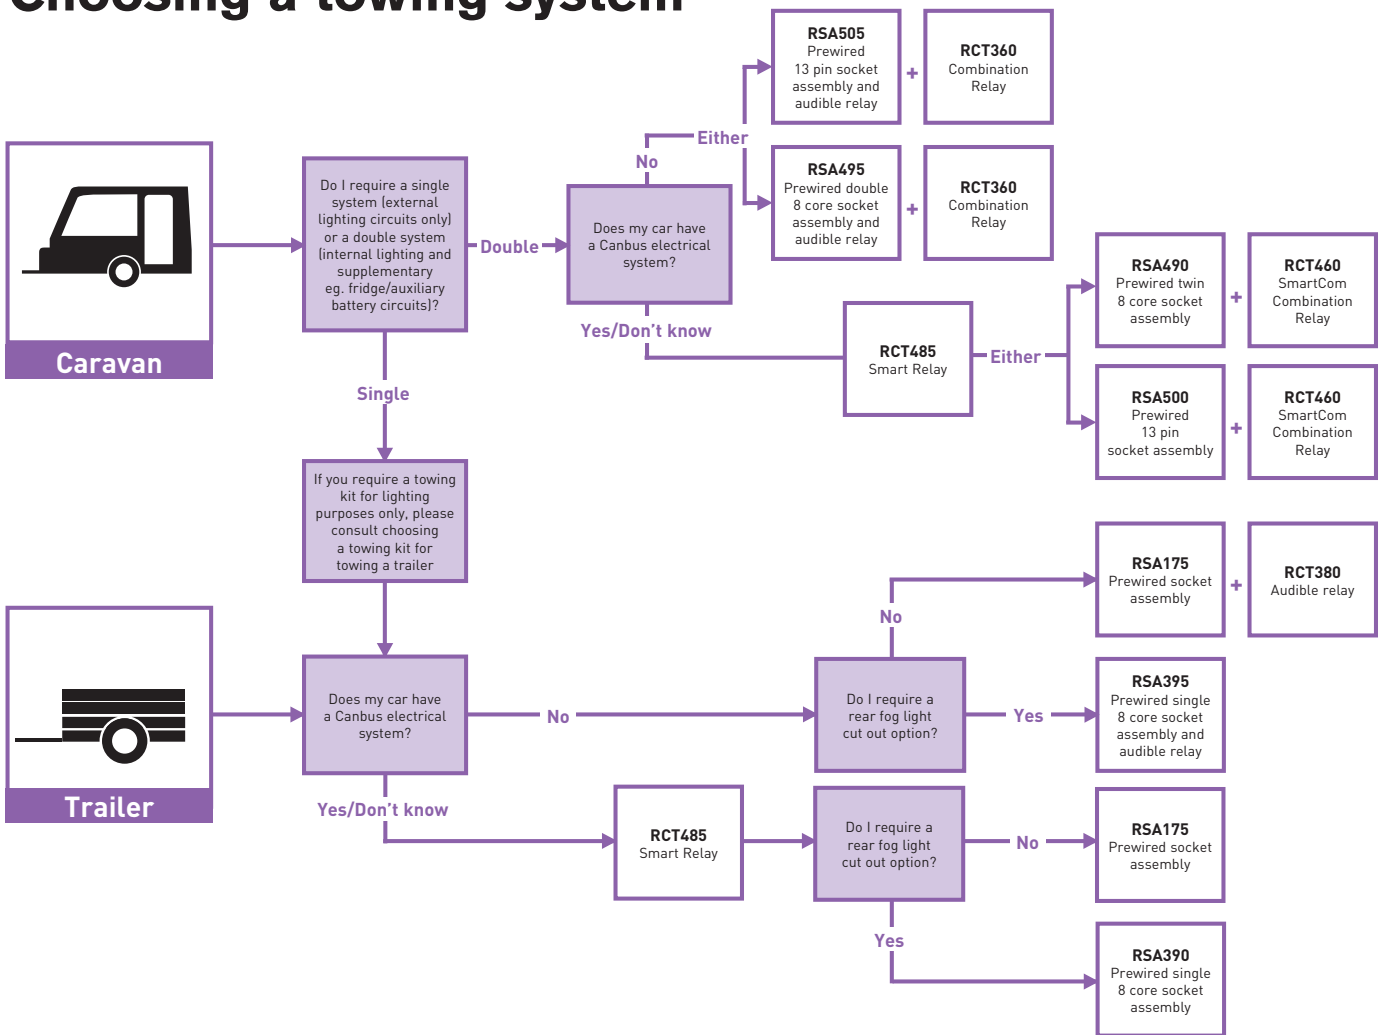

Ring offer a comprehensive range of accessories, electrics and lighting products specifically designed for the towing of trailers, caravans, boat trailers, agricultural equipment and horse boxes.

Our experience extends to being a leading supplier to car, caravan, trailer and towbar manufacturers in the UK and worldwide.

All our products meet or exceed current European approvals for our OEM and aftermarket customers.

Choosing a towing system

When choosing and loading your trailer consider the following points very carefully.

- Check that the engine capacity is large enough to tow the trailer and load - check with vehicle manufacturer.
- Check that the brakes are powerful enough to stop the vehicle and trailer safely. This should include the trailers braking ability. All trailers over 750kg need to have an overrun braking system.
- Check that the Trailer Gross Weight does not exceed the Towing Capacity of the vehicle.
- Check the recommended nose weight for your vehicle. This is likely to be between 50 and 100kgs. Only in the case of very light trailers should you have less than 50kg nose weight.

Replicates a vehicle's lights to ensure the safe towing of trailers, horse boxes, hobby trailers or cycle racks. All Ring trailer board lighting is E-marked and comes with a 12N 7 pin plug.

RCT465 12S Smart Combi Relay Controls charging of the auxiliary battery

- 12S smart combination relay
- Cuts off power from vehicle to caravan battery and caravan fridge when no charge is available
- Suitable for multiplex and CANbus systems

Product Dimensions (mm):	H43 x W44 x D25
Weight (kg):	0.04
Voltage:	12V DC

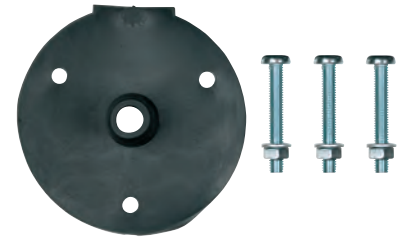

RCT485 12N Smart Logic Relay Controls trailer lighting without interfering with the vehicle lights

- 12N smart logic bypass relay
- Allows 12N electrics to be wired to vehicles with multiplex and CANbus systems
- Includes warning buzzer

Product Dimensions (mm):	H25 x W83 x D53
Weight (kg):	0.154
Voltage:	12V DC

RCT760 Socket Seal Kit (c/w bolts)

- Socket seal and mounting kit
- Suitable for 12N and 12S sockets
- Waterproof seal
- Includes nuts, bolts and gasket

Product Dimensions (mm):	H77 x W72 x D29
Weight (kg):	0.04

RCT1630 240V 16 Amp UK Mains Adaptor

- Pre-wired 240V 16A socket/coupler to 240V 13A UK plug
- Suitable for connecting mains caravan electrics to internal 240V power supply, i.e. when at home, in garage etc.

Product Dimensions (mm):	H52 x W71 x D352
Weight (kg):	0.24
Voltage:	230V AC

RCT1650 Mains Extension 10m

- Pre-wired 240V 16A mains plug and socket/coupler to 10m of orange mains cable
- Fully weatherproof
- Essential for caravanners 'hook-up' on site
- Manufactured to BS4343 & BS6500 standard

Product Dimensions (mm):	H50 x W1000 x D65
Weight (kg):	1.83
Voltage:	230V AC

RCT1660 Mains Extension 25m

- Pre-wired 240V 16A mains plug and socket/coupler to 25m of orange mains cable
- Fully weatherproof
- Essential for caravanners 'hook-up' on site
- Manufactured to BS4343 & BS6500 standard

Product Dimensions (mm):	H50 x W2500 x D65
Weight (kg):	4.174
Voltage:	230V AC
